

INVITATION TO THE BREMEN MASS SPECTROMETRY SEMINAR

The Bremen Mass Spectrometry Seminar cordially invites you to a lecture by

JOSEPH GAULT

Post Doc

Department of Chemistry
(University of Oxford, Oxford, UK)

Revealing the Roles of Lipids and Drugs in Mediating Membrane Protein Function

on Wednesday, Apr 20th, 2016, at 16:00

at Max Planck Institute for Marine Microbiology (new lecture hall)

Joseph Gault is an active member of Professor Dame Carol Robinson Research Group at Oxford University. His current research focus is on understanding the relationships between membrane proteins and the lipids that make up the membrane by applying top-down and native MS.

There will be a small reception with wine and cheese after the seminar
(sponsored by Bruker Daltonics and Thermo Fisher Scientific).

The Bremen Mass Spectrometry Seminar hosts monthly talks on mass spectrometry technology and applications. For more information about the Seminar and upcoming speakers, please visit <http://www.bremen-ms-seminar.de/>
