

# Workshop

## DFG Core Facility MALDI-MULTI

The MALDI-MULTI Core Facility at the University of Bremen invites you to a workshop presenting the core facility and our instrumentation. The program will include research talks given by our users and aims to present research highlights of the offered analytical techniques and their applications.

### ABOUT US

The DFG Core Facility “MALDI-MULTI” provides access to two analytical techniques:

- MALDI-imaging mass spectrometry for spatial untargeted chemical analysis of tissues, cells, and biofilms,
- MULTI-ARRAY electrochemiluminescence for detection of biomarkers in serum and tissue lysates.

#### ■ WHEN:

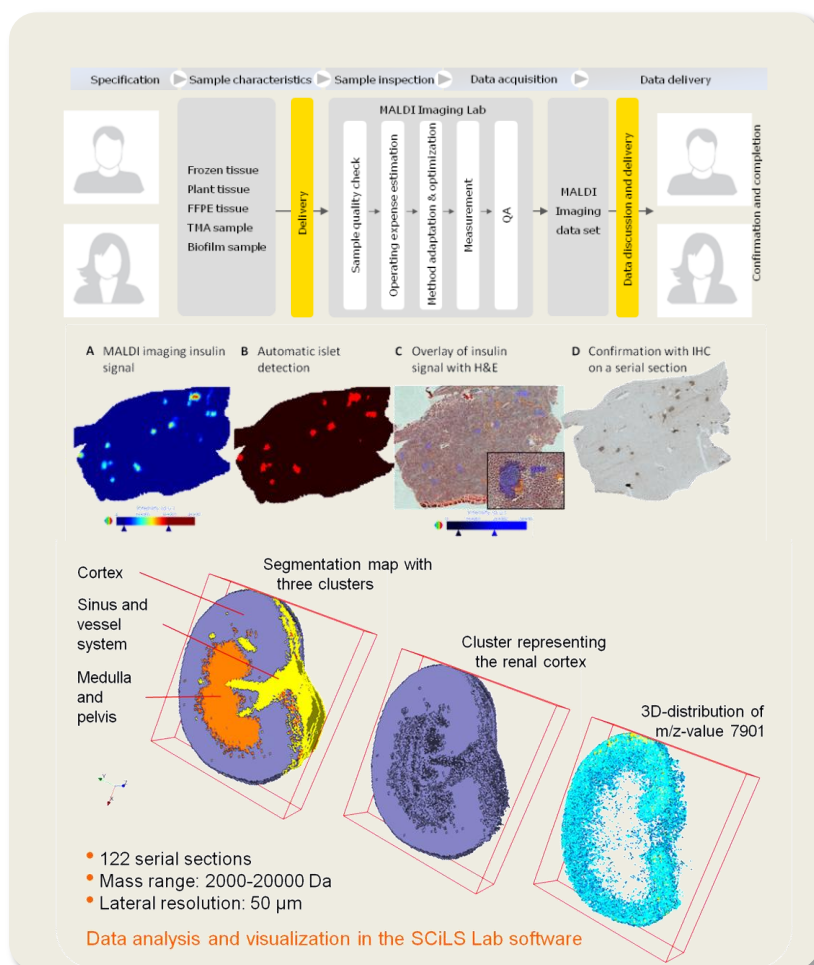

June 12th, 2014  
10:00am – 3:30pm

#### ■ WHERE:

Bremer Innovations und Technologie Zentrum (BITZ),  
room K5, Fahrenheitsstraße 1,  
28359 Bremen

### INVITED SPEAKERS

- Prof. Axel Walch (Helmholtz Center Munich)
- Prof. Nikolai Kuhnert (Jacobs University)
- Manuel Liebeke (MPI Marine Microbiology)
- Michael Becker (Bruker Daltonics)
- Kathrin Günther (BIPS, Bremen)
